

**COMMERCIAL COURT OF
NANTERRE**

Statement of claim n°2023M02420
PCL n°: 2023J00281

ORDER

I, **Mrs. Françoise LARGET**, judge of the Nanterre specialized Commercial Court and designated as insolvency judge (*juge-commissaire*) in ORPEA's accelerated safeguard procedure, a French limited liability company (*société anonyme*) with a share capital of 80,867,313.75 euros, having its registered office at 12, rue Jean Jaurès, 92813 Puteaux Cedex, and registered with the Nanterre Trade and Companies Register (*Registre de Commerce et des Sociétés de Nanterre*) under number 401 251 566, represented by *Maître* Saam Golshani (White & Case LLP), acting as legal advisor, assisted by the clerk,

Considering the request filed by CIDIF CAPITAL, Mr. Edouard Leroy and Mr. Karim Abel, and the grounds put forward,

Considering the debtor, the judicial administrators, the creditors' representatives, the applicants, as well as all the affected parties whose claims, listed in **Schedule 1**, are disputed,

This case was summoned to the 10 May 2023 hearing and postponed to the 12 May 2023 hearing,

Considering the observations of *Maîtres* Hélène Bourbouloux and Thibaut Martinat, acting as judicial administrators, represented at the 12 May 2023 hearing,

Considering the observations of *Maîtres* Marc Sénéchal and Christophe Basse, acting as creditors' representatives, represented at the 12 May 2023 hearing,

Considering the affected parties' observations, present or represented at the hearing, and whose rights are disputed,

Considering the Public Prosecutor whom, after pointing out that the affected parties' summons could have been better organized, indicates that:

- (i) the judicial powers of the insolvency judge do not include the power to assess securities' existence or voidance,
- (ii) a division of class No. 7 must be made, as there are no verifiable objective criteria to justify that creditors holding both secured and unsecured claims are members of class No. 7,
- (iii) the reference made by article L. 626-30 of the French Commercial Code to article L. 228-103 of the French Commercial Code must be interpreted literally, and consequently OCEANE bondholders are equity holders.

REMINDER OF THE FACTS

By judgment dated 24 March 2023, the Nanterre Commercial Court opened an accelerated safeguard procedure to the benefit of ORPEA S.A. and appointed:

- SELARL FHB, represented by *Maître* Hélène Bourbouloux, and SELARL AJRS, represented by *Maître* Thibaut Martinat, acting as judicial administrators,
- SCP BTSG, represented by *Maître* Marc Sénéchal, and SELARL C. BASSE, mission carried out by *Maître* Christophe Basse, acting as creditors' representatives.

By notice dated 21 April 2023, published in the *Bulletin des Annonces Légales Obligatoires*, pursuant to Article R. 626-58 of the French Commercial Code, the judicial administrators notified each affected parties of the terms and conditions of their allocation in classes and the criteria used for the arrangement of the classes of affected parties, the list of such classes, as well as the method retained for computing the votes.

In this context, by request filed on 2 May 2023, the applicants, pursuant to Article R. 626-58-1 of the French Commercial Code, request the insolvency judge to order the rectification of the classes allocation of the parties affected by ORPEA's draft accelerated safeguard plan, notified by the judicial administrators on 21 April 2023, so that:

- bank(s) which granted secured loans in the view to refinancing the unsecured debt up to €600M be removed from the class of secured creditors and be classified in a class of unsecured creditors;
- banking institution creditors which are in class No. 1 to No. 3 for their secured claims and in class No. 7 for their unsecured claims, regarding class No. 7, be assigned to a class other than those of common bondholder and Euro PP holders; and
- each bondholder mass be subject to the creation of a full-fledged class of affected parties in order to respect the principle of immiscibility and the condition of sufficient commonality of economic interest.

GROUNDS OF THE DECISION

Regarding the request for the withdrawal of certain lenders from classes No. 1 to No. 3 and for their reallocation in a class of unsecured creditors

The applicants consider that approximately 600 million euros of unsecured debt have been refinanced, with the aim of artificially creating the conditions for a cross-class cram down under a forthcoming accelerated safeguard. They are challenging the granting of the securities and liens granted, pursuant to the agreement approved on June 10, 2022 by the Nanterre Commercial Court.

Hereupon,

Article R. 626-58-1 of the French Commercial Code provides that *“The status of affected party and the methods of allocation in classes and calculation of the votes corresponding to the claims or rights allowing a vote to be cast may be challenged by each affected party, the debtor, the judicial administrator, the creditors' representative and the public prosecutor. The insolvency judge shall be entrusted with this*

challenge by request within a ten-day-period from the notification provided for in the first paragraph of Article R. 626-58, failing which they are inadmissible.”

As a result of this provision, the insolvency judge’s role is limited to disputes related to the status of affected party, to the methods of allocation in classes and to the methods of calculation of the votes corresponding to the claims or rights allowing to express a vote.

However, law does not grant to the insolvency judge with the judicial power to rule neither upon the legal conditions of the conciliation agreement conclusion, nor on the validity of securities and liens granted to creditors gathered in classes No. 1 to No. 3 within the framework of the recourse, the cases of which are strictly listed by Article R. 626-58-1 of the French Commercial Code.

Regarding the request to be allocated in a different class from banking institutions which are both member of classes No. 1 to No. 3 for their secured claims and of class No. 7 for their unsecured claims

According to Article L. 626-30, III of the French Commercial Code, the judicial administrators shall, based on verifiable objective criteria, gather the affected parties into classes representing a sufficient commonality of economic interest in compliance with the following conditions:

“1° creditors whose claims are secured by security interests in rem (sûretés réelles) over the debtor's assets, for their secured claims, and other creditors shall be gathered into separate classes;

2° the classes allocation has to comply with subordination agreements entered into before the commencement of the procedure;

3° equity holders are gathered in one or more classes;”

The claimants consider that the wide range of claims assigned to class No. 7 does not make it possible to justify a sufficient commonality of economic interest between the members of this class. They argue that the unsecured claims held by creditors who participated in the previous conciliation procedure or who otherwise have secured claims, should have been assigned to separate classes.

The judicial administrators think that this sufficient commonality of economic interest is fulfilled since they have taken into account the following criteria:

- the financial nature of the claims;
- the absence of any guarantee, security or lien over these claims;
- their similar treatment under the draft accelerated safeguard plan, namely a debt to equity swap;
- the fact that in a judicial liquidation procedure scenario, all these claims, assuming that they could benefit from any value, would be paid *pari passu* on a pro rata basis.

Hereupon,

The claimants have not demonstrated any element that would make it possible to establish a lack of commonality of economic interest such that a division of class No. 7 would be necessary.

Indeed, it is not disputed that all the claims in class No. 7 are unsecured and are to be treated equally in the context of the draft accelerated safeguard plan as in the event of a judicial liquidation procedure or a court-ordered sale plan pursuant to article L. 642-1 of the French Commercial Code.

Moreover, the aforementioned provision requires the judicial administrators to separate the creditors holding security interests in rem (*sûretés réelles*), for their secured claims, from the unsecured creditors, but does not prohibit the creditors with securities from being, for their unsecured claim, gathered in the same class as other unsecured creditors.

It is consequently unfounded to request that the affected parties holding unsecured claims, who also hold secured claims, be reassigned to a separate class.

Regarding the request for the creation of a separate class of affected parties for each bondholder mass

The applicants request the insolvency judge to order a modification of the classes so that each bondholders' mass be gathered in a separate class of affected parties pursuant to the principle of immiscibility of the masses.

Hereupon,

According to Article R. 626-61 of the French Commercial Code, the bondholders shall be classified in one or more classes of affected parties. The judicial administrator is also free to determine the terms of the bondholders' vote, pursuant to Articles L. 626-30-2 and R. 626-60 of the French Commercial Code.

For the vote on the safeguard plan by the creditors gathered in classes of affected parties, the bondholders are not called to vote through the mass within the meaning of Book 2 of the French Commercial Code, but within the framework of a vote in classes of affected parties under the mandatory provisions of the public order rules of Book 6 of the French Commercial Code.

No provision of Book 6 of the French Commercial Code prohibits several bondholders from being gathered in one single class of affected parties with other unsecured non-bondholders.

Their allocation within a single class, together with other unsecured creditors, is left to the sole discretion of the judicial administrators regarding a sufficient commonality of economic interest on the basis of the verifiable objective criteria used.

As a result, the principle of immiscibility of the bondholders' masses is not applicable in the context of the adoption of the plan by classes of affected parties.

ON THESE GROUNDS

Considering the Public Prosecutor's opinion,

DECLARE inadmissible the company CIDIF CAPITAL, Mr. Edouard Leroy and Mr. Karim Abel, in their request for the withdrawal of certain lenders from classes No. 1 to No. 3 and for their reallocation in a class of unsecured creditors, as the insolvency judge does not have the judicial power to assess the nature and existence of the liens and securities disputed.

RULE OUT the request to reclassify in a different class of affected parties, banking institutions that are both member of classes No. 1 to No. 3 for their secured claims and of class No. 7 for their unsecured claims from the company CIDIF CAPITAL, Mr. Edouard Leroy and Mr. Karim Abel, given the existence of verifiable objective criteria justifying a sufficient commonality of economic interest between the members of class No. 7.

RULE OUT the request from the company CIDIF CAPITAL, Mr. Edouard Leroy and Mr. Karim Abel for the creation of a separate class of affected parties for each bondholder mass, the principle of immiscibility of

the masses of Article L. 228-61 of the French Commercial Code does not apply to the vote of the classes of affected parties.

RULE OUT all other requests from the company CIDIF CAPITAL, Mr. Edouard Leroy and Mr. Karim Abel.

STATE that this order shall be notified, in addition to the judicial administrator and the creditors' representative, by any means to:

- ORPEA
Mr. Laurent Guillot
12, rue Jean Jaurès
92813 Puteaux Cedex

- CIDIF CAPITAL
Mr. Bryan Hayat
57, avenue de Vallauris

- Monsieur Edouard LEROY
32, quai Jean-Charles Rey
Monaco

- Monsieur Karim ABEL
1351, avenue Notre Dame de Vie
06250 Mougins

And to all affected parties listed in **Schedule 1** whose rights are the subject of this dispute, if applicable through the agent or the representative of the mass.

STATE that this order shall be communicated to the Public Prosecutor.
